The Story of the Great British Bake Off
Anita Singh

Summary
Take one tent. Fill with 12 amateur bakers. Garnish with one venerable cookery writer, one blue-eyed bread-maker, and two comedy queens with a love of innuendo, and you have the recipe for the most popular show of our times. When The Great British Bake Off made its debut in August 2010, it had the makings of a modest hit. But nobody—not the program-makers and certainly not those first contestants—could have predicted what was to come. Here was a show in which the biggest weekly drama was whether or not a sponge cake would sink in the middle. And oh, how we loved it. Here is the ultimate Bake Off fan book: from bread lion to bin-gate; heart throbs to Twitter trolls; soggy bottoms to sticky buns. This is the celebration of Britain's most popular cookery contest.

Around Britain By Cake
A Tour of Our Traditional Teatime Treats
Caroline Taggart

Summary
If there's one thing Brits never say no to, it's stopping at four o'clock for a cup of tea and a slice of something tasty. After all, they invented afternoon tea. So what better way to capture a slice of Britain than to devour its many tea-time treats, slice by sumptuous slice? That's what Caroline Taggart set out to do one day—nothing more energetic than taking a table by the window, and investigating one mouthful at a time what (other than geography) separates a Coventry God Cake from an Eccles Cake, or Grantham Gingerbread from Whitby Gingerbread. In her encounters with those people making traditional cakes, she unravels the stories behind why they originated, where and when they did, and meditates on their resurgence today. Includes 60 recipes, with metric measures.

Still others pay homage to great gourmets like Thomas Jefferson, August Escoffier, or Julia Child, or to great ingredients like butter and brown sugar. He also includes a culinary exam and a lesson on how to write a recipe. Whether he's championing the virtues of funnel cake or recounting his experiences judging a national pie contest, Harte is often whimsical, always informative, and never uninteresting. The Spices of My Life
Tiffany Moen

Summary
If you’re cooking for a large family and want to make your budget go farther, have eaters with a variety of tastes and preferences, or just want to try recipes that have spices and tastes that are a bit different from the norm, cookbook author Tiffany Moen can help. The mother of eight children, Tiffany spent many years finding and perfecting recipes for her multicultural family. The recipes in this cookbook were created while Tiffany was preparing meals and would find that she was missing an ingredient to a recipe, wanted to improve one she had tried, or she was inspired by something she found on sale at the market. As her children grew, it was up to Tiffany to stretch the dollars and fill the stomachs and that meant fresh food made at home. The result is recipes that create delicious food, happy palates, and the wish that there is enough for leftovers.

Contributor Bio
A resident of Georgia and a native of Florida, Tiffany Moen’s heart was always pulling her to be a mom. After having three healthy children, Tiffany felt called to adopt and, with her husband Eric in agreement, they adopted five children from various countries. The idea for a cookbook came about during a very stressful time when Eric was unemployed. Within four months of starting, she had written, cooked, verified, and photographed the recipes in this book. A lot of the inspiration for her recipes came from wanting to incorporate the children’s various ethnic origins and tastes into her cooking. Using her creativity to try new ingredients in recipes and visiting Asian and Hispanic markets for new ideas has had a big impact on her recipes. She came up with the name, "The Spices of My Life" because it has been both her love for experimenting with spices and ingredients in the kitchen, and the addition of each child to their family, that has truly made her food and life so interesting.

Vintage Kitchenalia
Emma Kay

Summary
As one world vanishes, another takes its place. The objects we collect are a record of the past, and of these objects, the least recorded are often the ones we all take for granted. Antique and vintage kitchenalia can tell us so many stories about Britain’s culinary, scientific and innovative past. Yet in a society seemingly so obsessed with food – the preparing, eating, sharing and sheer enjoyment of what and how we all eat – the humble kitchen utensil and its evolution is an often overlooked aspect of Britain’s heritage. Cooking evolved from a fire in the middle of the homestead, with a crude container to boil up every meal, to the vast shiny, glossy, gadget and accessory-driven kitchen, where most people now have to conjure up complex and clever dishes created by grilling, frying, poaching, roasting, baking, toasting, boiling, braising, slow-cooking, steaming and many other techniques to test and challenge the skills of even the most talented cooks. By investigating the objects themselves, Emma Kay discovers the rich history of how Britain’s kitchens became so versatile and, as th...

Mary-Anne Boermans believes passionately that traditional British food, refined over centuries, can be tastier, healthier, more exciting and easier to prepare than anything mass-produced. Moreover, it also offers ways to save money and drastically reduce food wastage. Calling for a return to the food of times past, this book celebrates how the British used to eat, being inventive with the less expensive cuts of meat, using richly flavored leftovers to create stunning new dishes, making the most of seasonal ingredients served simply and deliciously in ways we have forgotten. It's frugal, but full of flavor, deliciously different, yet proudly traditional. This delectable collection includes recipes for meat, poultry, game, offal, vegetable and fish. There are skinks, hashes, puddings and pies. Goose, shrimp, parsnips et al will be potted, stewed and fricasseed into hearty, flavorful food that stands up to the best modern recipes. And Mary-Anne will reveal the fascinating stories behind the dishes. Includes metric measures.

**Cook For Syria Recipe Book**

Clerkenwell Boy, Serena Gruen

**Summary**

Clerkenwell Boy and Serena Gruen originally came up with the idea to curate one charity dinner, with one chef, in aid of UNICEF UK’s humanitarian work helping children and refugees affected by the crisis in Syria. This quickly became a large-scale banquet with six headline chefs which sold out within in days. Leveraging the power of social media, top chefs, cookbook authors and families with links to Syria were encouraged to share their favorite recipes online with a #CookForSyria inspired twist—so that anyone could host their own charity supper club or bake sale, or just learn about the amazing cuisine and culture of Syria. As recipes flooded in, it made sense to share these beyond social media and in the form of a beautiful not-for-profit recipe book. Coffee
A Drink for the Devil
Paul Chrystal

Summary
In the Western world, coffee consumption is around one-third that of tap water. After petroleum, coffee is the second-most traded commodity in the world. Over 7 million metric tons are produced annually. By the end of 2015, Great Britain had more than 20,000 coffee shops across the country, and even after fifteen years of rapid expansion, Britain’s coffee-shop sector still continues to grow. Despite the fact that a pope once called it ‘the devil’s drink’, there is a jar in every kitchen and it is a fact of life that drinking coffee is here to stay. Whether you drink instant or fresh, decaf or espresso, this book brings together the facts and ephemera relating to this globally crucial beverage, examining its origins and the stories of its discovery, its production and its growing popularity over time. In doing so it shines a light on coffee’s important place in British life.

He appears regularly on BBC local radio the World Service. ### The Tudor Cookbook

**From Gilded Peacock to Calves Feet Pie**

The Trench Cook Book 1917
Western Front Recipes from Bully Beef Pie to Trench Tea
Hannah Holman, The War Office

Summary
Why did trench tea taste of vegetables? What was the single largest component of a Tommy's diet? What were "iron rations?" Why was "Maconochie" the most despised food at the front? The old adage that "an army marches on its stomach" was never more true than on the Western Front during World War I. Literally millions of hungry soldiers had to be fed and watered in trenches and behind the lines in France and Belgium and beyond. An army of cooks working in field kitchens relied on their training and official manuals published by the War Office, and this book reproduces pages direct from these rare artifacts with an authoritative introduction.

The Supper Club Book
A Celebration of a Midwest Tradition
Dave Hoekstra, Garrison Keillor

Summary
The supper club of the Upper Midwest is unmistakably authentic, as unique to the region as great lakes, cheese curds, and Curly Lambeau. The far-flung locations and creative decor give each supper club a unique ambience, but the owners, staff, and regulars give it its personality. Author Dave Hoekstra traveled through farmland, woods, towns, and cities in Wisconsin, Minnesota, Iowa, Michigan, and Illinois, eating at salad bars, drinking old fashioneds, and most of all talking to old-timers, local historians, and newcomers. He discovered that far from going the way of so many small establishments, supper clubs are evolving, combining contemporary ideas such as locavore menus and craft beer with traditional Friday night fish fries and Saturday prime rib. He brings to life the memorable people who have created and continue the tradition, from the blind dishwasher at Smoky's to the Dick Watson Combo playing "Beyond the Sea" at the Lighthouse and the entrepreneurs and hipster crowd behind the Old Fashioned. Corporations have defined mainstream eating habits in America, but characters defi...

**The People's Place**

Soul Food Restaurants and Reminiscences from the Civil Rights Era to Today

Dave Hoekstra, Chaka Khan, Paul Natkin

**Summary**

Dr. Martin Luther King Jr. loved the fried catfish and lemon icebox pie at Memphis’s Four Way restaurant. Beloved nonagenarian chef Leah Chase introduced George W. Bush to baked cheese grits and scolded Barack Obama for putting Tabasco sauce on her gumbo at New Orleans’s Dooky Chase’s. When SNCC leader Stokely Carmichael asked Ben’s Chili Bowl owners Ben and Virginia Ali to keep the restaurant open during the 1968 Washington, DC, riots, they obliged, feeding police, firefighters, and student activists as they worked together to quell the violence.

Celebrated former *Chicago Sun-Times* columnist Dave Hoekstra unearths these stories and hundreds more as he travels, tastes, and talks his way through twenty of America’s best, liveliest, and most historically significant soul food restaurants. Following the “soul food corridor” from the South through northern industrial cities, *The People’s Place* gives voice to the remarkable chefs, workers, and small business owners (often women) who provided sustenance and a safe haven for civil rights pioneers, not to mention presidents and politicians;...

Artisan Public Relations

How to Get Your Artisinal Food and Beverage Creation the Attention They Deserve
Paul Wagner

Summary
Over the past twenty-five years, the world of artisan food and beverages has evolved from a few interesting point-of-sale items to huge sponsorships of everything from the Academy Awards and NASCAR to breast cancer research and public television. It used to be that a nice press kit and a smiling face could usually get you some coverage. Now we see celebrity chefs, podcasts, and concert tour logistics have all become part of the package. Artisan food and beverage has become big business, and at least some of the public relations programs have grown up alongside the industry. But for most producers, the challenges still remain, as they do for all small businesses: you don't have the dollars to compete on a national scale, and your only hope for success in the world of public relations is to be more costs effective, more targeted, and smarter than their competition. From wine producers and brewers to bakers and breakfast bar makers, smart, effective, and focused are the bywords of success. Making sure that's how you approach your public relations effort is what this book is all about.

Afternoon Tea
A History and Guide to the Great Edwardian Tradition
Vicky Straker

Summary
The Edwardian era was the golden age of etiquette and gentility, and the taking of tea was rather like a ceremonial masquerade. At this time, it was not uncommon for ladies to change up to five times a day, and one of their outfits would have been a tea dress. Tea was the only time the mistress of the house would serve her guests; the china used, the manservant who answered the door and the delicacies presented were of paramount importance. In this beautifully illustrated book, Vicky Straker invites us to tea in the Edwardian era and serves it up with over thirty of her own delicious contemporary recipes. Also included are chapters on dress, etiquette and the servants who prepared the tea. The First World War, the Temperance Association and changes in domestic service each had their effect on the rise in fashion of afternoon tea, as well as its eventual demise. This book explores why tea was so important for the Edwardians in a world of flourishing aspirations and how it became so popular across all social classes. After all, who among us has not found comfort in a good cup of tea an...

She has previously been invited to appear on ITV's This Morning to speak about Dorothy's recipes, and will be speaking at the Chalke Valley History Festival in 2016.

Eating Eternity
Food, Art and Literature in France
John Baxter

Summary
“Show me another pleasure like dinner which comes every day and lasts an hour,” wrote Talleyrand. That Napoleon's most gifted advisor should speak so highly of eating says much about the importance of food in French culture. From the crumbs of a madeleine dipped in tisane that inspired Marcel Proust to the vast produce market where Emile Zola set one of his finest novels, the French have celebrated the relationship between art and food. Eating Eternity offers a seductive menu of those places in the French capital where art and food have intersected. Appendices guide you to the restaurant where Napoleon proposed to Josephine, the cafés patronized by Ernest Hemingway, Henry Miller, Isadora Duncan and Man Ray, as well as those out-of-the-way sites that bring to life the culinary experience of Paris. Eating Eternity is an invaluable and unique guide to the art and food of Paris. Bon appetit!
